

AATG San Diego Chapter Herbsttreffen 2006

October 28, 2006

Albert Einstein Academies Charter School

Participants represented teaching at pre-school through university level. Amanda Jens, who was a recipient of an AESSIG summer stipend in Leipzig, gave a power-point presentation about her immersion experience this past summer. Amanda is currently teaching at Poway High School. Angela Shaw presented information regarding the Chapter Website and related information available online using a laptop and LCD projector. Astrid Ronke solicited support for a new chapter project: a Theater Day when 15-minute plays would be presented locally and compete for prizes.

Christiane Frederickson, representative of the Klett Buchverlag presented new materials available for teaching culture: Rundum, 30 Stunden Deutsch, Alltag in Deutschland and Generation E. D-A-CH, the letters standing for Deutschland, Austria and Switzerland. A map showing all three countries is now available from Klett. Sample materials were distributed and explained. Materials were available for purchase.

During the Sharathon teachers shared ideas and materials used to teach culture. These materials included: Sprichwörter Übungen, Weihnachtseinkäufe im Internet, Sankt Martin, Tiere die in der Kälte leben, Was weisst du über Deutschland?, ein Deutschland Puzzle.

Participants were treated to a traditional breakfast and luncheon. I am including the recipe for the delicious Apfelstreuselkuchen made by Doris Hedwig, the Testing Chair.
